

ActioNet C2 Systems OTA

A **RAPID, AI-ENABLED** Acquisition Pathway

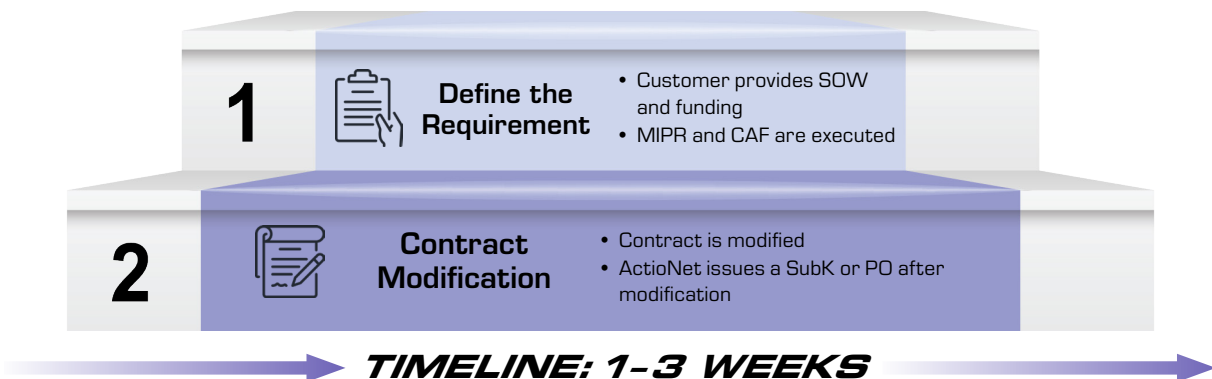

ActioNet's C2 Systems OTA Mission

- The ActioNet C2 Systems OTA provides a fast, flexible path to acquire, prototype, and field Mobile SCIF, C2, and secure communications solutions outside FAR constraints—cutting administrative burden and speeding mission delivery.
- OTA usage continues to grow across DoW and civilian agencies, enabling rapid adoption of advanced C2, SCIF, and secure infrastructure capabilities.
- OTAs give agencies accelerated access to engineered C2 systems, hardened mobile facilities, and mission-ready secure communications technologies.

ActioNet C2 Systems OTA Impact

- Rapid awards with timelines measured in days, not quarters
- Prototype to production flexibility without recompetition
- Purpose-built for C2, SCIFs, secure communications, RF/TEMPEST, and mission-system integration
- Reduced acquisition and delivery risk through iterative execution
- Mission-aligned outcomes that prioritize capability over process
- Seamless multi-domain integration across ISP/OSP networks, AV/VTC, platforms, and secure infrastructure
- Accelerated CONUS/OCONUS deployment of C2 facilities, mobile nodes, and secure comms packages

ActioNet C2 Systems OTA TWO-STEP PROCESS

ActioNet's Core Capabilities Areas

- Inside Plant/Outside Plant (ISP/OSP) Network & Comms Arch.
- Engineer, Furnish, Install and Test (EFIT) for Mission Systems
- C2 Systems Engineering and Deployment
- Secure AV, VTC, and Visualization Systems
- Electronic Security Systems
- Field Deployment and Sustainment Support
- Mission Data, AI, and Automation Integration
- RF, TEMPEST & Secure Infrastructure Integration

Update Ideal Use Cases for Federal Agencies SCIFs

- Legacy system modernization
- Secure cloud adoption and migration
- AI-enabled workflow transformation
- Rapid deployment of enterprise C2 Systems capabilities
- Cross-agency collaboration and pilot programs

ActionNet At A Glance

- Incorporated in 1998 (28+ years of past performance)
- Woman-owned Small Business (NAICS Code 517111)
- 3D Geospatial Scanning, Data Analytics, 3D Digital Twins
- AI/ML Integration, Big Data Platform
- Agile Software | DevSecOps | Cyber Security | Cloud Solutions
- IT Managed Services | Help Desk Management (Tier 0-3)
- CMMI®-DEV V3.0 Level 4 Externally Assessed
- CMMI®-SVC V3.0 Level 4 Externally Assessed
- CMMI®-DATA V3.0 Level 4 Externally Assessed
- CMMI®-SEC V3.0 Level 4 Externally Assessed
- ISO 20000 (ITSM) Certified
- ISO 27001 (Information Security) Certified
- ISO 9001 (Quality) Certified
- HDI Certified Support Center
- DCAA-Approved Accounting and EVM Systems
- Government Approved Purchasing System
- Government Approved Cost Estimating System

Contract Vehicles

- Other Transaction Authority (OTA)
- GSA MAS
- GSA Alliant 2
- GSA OASIS+

- FBI ITSSS-2

Customers We Serve

- USMC** 3D Digital Twin Dev & C5ISR Support
- NAVY** 3D Geospatial Scanning, Data Analytics/Engineering/Installation, Sustainment Support
- Air Force** GCCS, IL6 Support, CS & Identity Management
- ARMY** Custom App Svcs, Network Design/Management, Software Maintenance, COMSEC
- Defense Health Agency** Managed IT Services, Agile Software Dev, IT Infrastructure
- Department of State** Software Factory, DevSecOps BA/IT/Cloud Infrastructure Solutions
- Department of Treasury** IA & IT Managed CS Services/Solutions
- Department of Energy** IT Managed Services Support, AI/ML, Big Data Platform
- Department of Commerce** Enterprise Managed Tiered Cloud Services, Digital Transformation, Enterprise Cloud IT/App Services/Support
- Homeland Security** Agile Business Application DevOps Planning/Maintenance
- Security and Exchange Commission** IA Vulnerability Management Development & Support Services
- Health and Human Services** Strategic Governance Development, Software DevSecOps, Data Analytics/Administration Support Services
